

# Assessing our future water options

Seqwater has assessed the future water options against a number of considerations. The table below shows a 'leader board' for each category. No single water option is most favourable in each category, illustrating how trade-offs will be required to make a decision. Which options do you prefer?

Economic

Environment

Resilience

People and place

Your say

	Economic	Environment	Resilience	People and place	Your say
<b>MOST FAVOURABLE</b>	Demand management	Decentralised schemes	Desalination	<b>SITE SPECIFIC</b>	<input type="text"/>
	Surface water	Demand management	Purified recycled water		<input type="text"/>
	Groundwater	Purified recycled water	Demand management		<input type="text"/>
	Purified recycled water	Desalination	Decentralised schemes		<input type="text"/>
	Desalination	Groundwater	Surface water		<input type="text"/>
<b>LEAST FAVOURABLE</b>	Decentralised schemes	Surface water	Groundwater		<input type="text"/>
